Harold Alvarado

Systems and Computer Engineering Student at Universidad
Pedagógica y Tecnológica de Colombia | Junior Developer | Java,
Spring, Javascript, HTML, CSS, Typescript, React, Angular, Git,
Docker
Tunja, Boyacá, Colombia

Summary

#I am a developer passionate about technology, learning and
working on projects that allow me to improve and learn more, I
consider myself a proactive, creative and eager to improve my skills.
I would like to create innovative and efficient solutions, in which I
can improve my knowledge both in different technologies and in the
areas I work in.

#I have experience with backend technologies with Java using
Spring Boot, and I have done some projects with microservices using
also Docker, on the other hand in frontend I have used frameworks
such as React and Angular. I have also done some projects to
improve my logic with Java. I would like to do more projects using
other technologies and expand my knowledge and skills.

#I am open to work in a team and receive feedbacks, and above
all to show my commitment to improve and be productive. I would
like to find new opportunities and challenges to help me grow as a
professional and as a person. If you are interested in my profile, do
not hesitate to contact me, thank you for your attention!

Education

Universidad Pedagógica y Tecnológica de Colombia
Ingeniería, Ingeniería de Sistemas y Computación · (August 2021 - June 2026)
